Growth Session #11 - January 18-19, 2018

A person is seen from the side, sitting at a desk and working on a laptop. The desk is cluttered with various items, including a small potted plant, a glass of water, and a cup. The background is a blurred office environment. The entire image is overlaid with a semi-transparent blue filter, and white text is superimposed on the left side.

100% of B2C
applications require
some level of content
management.

Yet Another CMS? Really?

A blue-tinted photograph of a person with their mouth wide open in a scream or shout, with both hands raised near their face. The image serves as a background for the text.

Problems with Rails CMSs

- Hard to integrate with an existing apps
- Overkill
- No proper multilingual support

BuriCMS, the Solution

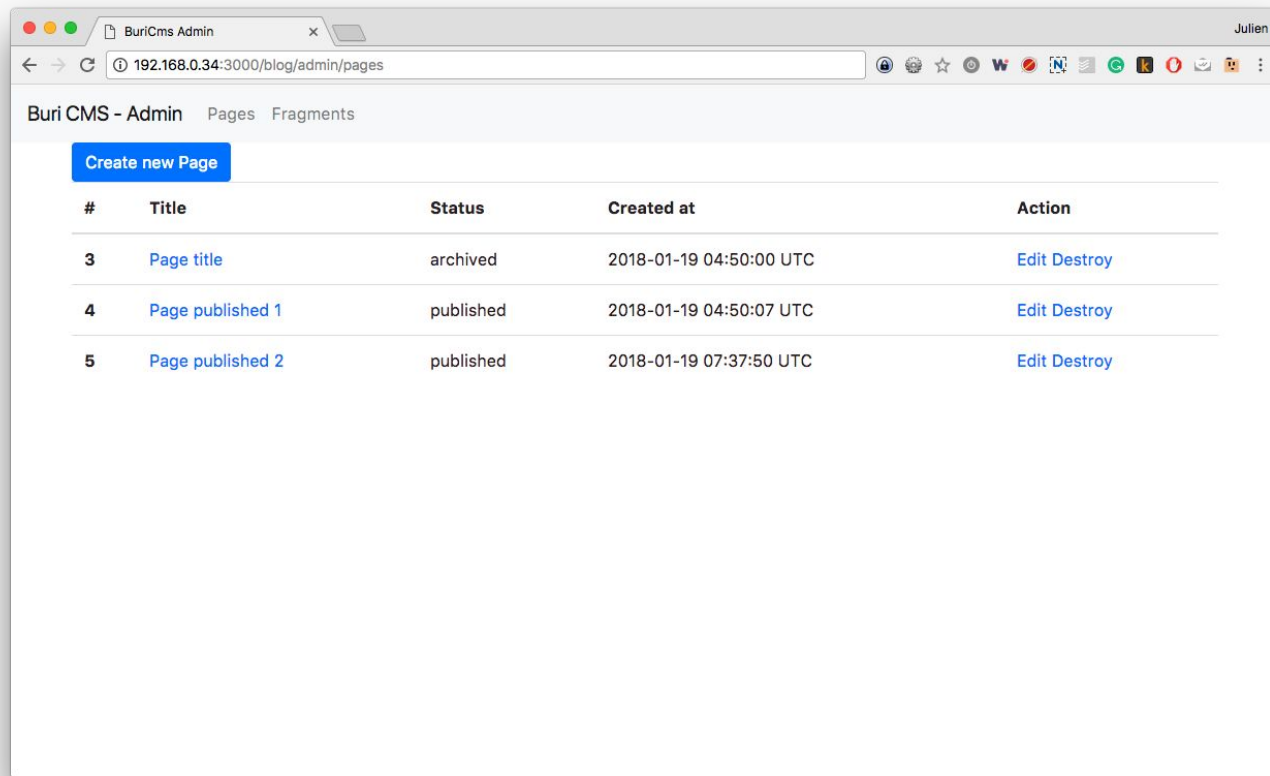

BuriCMS

- “Plug & Play” Rails Engine
- Just a simple WYSIWYG
