

PayStar Gem

Jason - Oak - Yuth

Growth Session #17 - August 23-24 2018

Achievements and progress

- Use gem 'pay_star' in gemfile
- Define Payment Method object with credentials of particular payment gateway
- Use the CreditCard table to store gateway_customer_id of a user
- Define associate in any model like
 - Order
 - has_many: payments, as: payable
- `payment = order.payments.create(payment_method: payment_method, credential: credential)`
- `payment.process!`

DEMO :)

The process would be long and it might take multiple nimbl3 growth sessions to achieve something usable, but it could be worth it as we could have our own open source gem :)

Thanks!
