Automated Code Review + Rails Template

Abhinav

Growth Session #6 - August 24-25 2017

- Automated Code Review

  - Integrate pronto with Rails app.

  - Integrate pronto runners for more extensive review.

  - Automate the review process with Semaphore CI build.

- Enhance rails-template by working on the reported issues and bugs.

Automated Code Review

- Integrated [pronto](#) with Rails app.
- Integrated pronto runners.
  - Rubocop - Ruby static code analyzer
  - Flay - Analyzes code for structural similarities
  - Brakeman - A static analysis security vulnerability scanner for Ruby on Rails applications
  - DirtyWords - Flags the Seven Dirty Words
  - Reek - Code smell detector for Ruby
  - Scss - SCSS-Lint, tool to help keep SCSS clean and readable
- Integration with Semaphore CI **[IN PROGRESS]**
  - It fails while building but when running the same command via SSH, it works.

Enhance [rails-template](#).

- **[BUG]** Fixed the database connection error inside the Docker web container, caused by changes in docker-compose version 3.
- **[BUG]** Fixed the script syntax error in the Dockerfile.
- **[BUG]** `Devise` generator was failing silently with no initializer generated. Fixed it.
- **[FEATURE]** Added config to disable css animations in test env.
- **[FEATURE]** Added `Doorkeeper` initializer.
- **[FEATURE]** Removed unused gems from the template.
- **[IN PROGRESS]** Research and started work on Heroku manifest file for web apps(to be continued).

Thanks!
